AMERICA'S LEGAL VIDEO EXPERTS®

We're serious about **VIDEO DEPOSITIONS**

Very, very serious...

BETTER LIGHTING

Professional lighting your claims adjusters and jurors will appreciate.

BETTER AUDIO

Clean, crisp sound that's easy to hear.

MORE

Real-Time Remote Observation

The Future of Video Depositions.

WITNESS

IMAGE RESOURCES
VIDEOGRAPHER

THE 'NET

Not Skype. Not video-conference. Something entirely different.
Time and geography are no longer barriers.

Imagine watching a basketball game on your computer and being able to text comments to the coach. Instead, you're watching a video deposition live in real time with crystal clear audio and a sharp image, and you can text comments to the attorney conducting the deposition.

Our Real-Time Remote Observation enables instant viewing access for those not present at the physical deposition. Your partner, co-counsel, paralegal, expert, and/or whomever you designate can monitor the deposition's full quality video and audio in real time. Anyone you want, practically anywhere in the world, watching on virtually any device. You decide who.

- Tune in remotely
- Save travel expenses
- Watch in highest quality video and audio
- Submit questions or comments in real time
- May remain visually anonymous to witness

Split Screen & Picture-In-Picture

Focus on What's Important.

Put a bigger emphasis on your exhibit with your witness still in sight.

Reactions can mean everything. With split screen and picture-in-picture, you can show both your exhibit and your witness side by side in the same high-definition video. Never lose sight of your witness or exhibit while you show your deposition at mediation or trial.

Video & Text Synchronization

Captivate Your Audience.

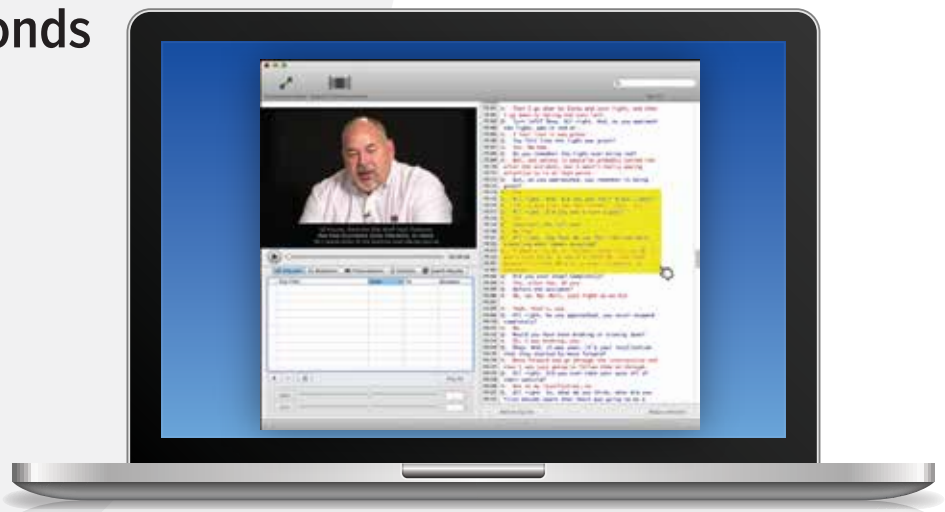

Research tells us...

Your audience's retention is increased with high-definition video/text synchronization where they can read and listen simultaneously.

Make redactions in seconds

FREE, easy-to-learn user interface makes for quick redactions by your staff at mediation or trial.

At no extra charge, we'll show you how you can present the deposition to a claims committee or your jury to maximize its impact.

The Difference Can Make a Difference

Our Quality is Second to None.

✓ **BROADCAST QUALITY DIGITAL CAMERA**

✓ **DISTRACTION-FREE BACKGROUND**

✓ **PROFESSIONAL LIGHTING TECHNIQUES**

✓ **STUDIO-GRADE AUDIO
RECORDED IN STEREO**

Since you wouldn't accept mediocrity anywhere else in your law practice, don't accept it with your video depositions.

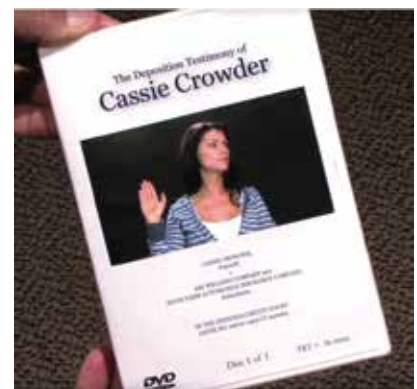

The videographer is the eyes and ears of your audience. Court reporters are simply not capable of the high video quality to which an adjuster or jury is accustomed. Video production is all we do. It's not a sideline. We understand the psychology of lighting, audio, and running a camera.

FINISHED PRODUCT

Our quality is second to none. The result is a clean, professional product that resonates with your audience.

The end product can be a DVD disc or HD video file with a photo of the witness and person's name prominently on the front of the cover.

“THEY MAKE THE BEST LOOKING VIDEO DEPOSITIONS POSSIBLE.”

David Craig
Craig Kelley Faultless
Indianapolis, IN

“THEY SIGNIFICANTLY REDUCE THE STRESS ATTORNEYS HAVE.”

A. Daniel Vazquez
Fine, Farkash & Parlapano, P.A.
Gainesville, FL

“THEY KNOW HOW TO SHOOT DEPOSITIONS FOR BEST PLAYBACK TO A JURY.”

Jeff Hammond
Cohen & Malad
Indianapolis, IN
